## **Kapp Alloy & Wire Receives Fire Safety and Response Training**

**OIL CITY, PA, May 20, 2010** – The Kapp Alloy & Wire, Inc. staff was recently recertified (or certified in the case of new employees) in fire safety and response. Dave White of White Fire Extinguisher, Inc. conducted a hands-on fire safety training session at the Kapp Alloy plant.

The staff reviewed Kapp Alloy's plant safety instructions, as well as the types of fires and appropriate extinguishers for each. In addition to the review, each employee extinguished an oil fire using a dry chemical fire extinguisher. "The only way to be prepared for an emergency is to train for it, and fire safety is a crucial life skill both on the job and at home," stated Kapp Alloy's President, Jack Crawford.

The staff at Kapp Alloy is generally recertified on a yearly basis, or when a new employee is hired. For more information on providing fire training for your employees, contact White Fire Extinguisher, Inc. at 814.724.6611 in Meadville, PA, or 724.662.2826 in Mercer, PA.

### **About Kapp Alloy & Wire**

For over 60 years Kapp Alloy & Wire, Inc. has manufactured the highest quality solder and flux. Whether producing custom alloys and fluxes for aluminum soldering on NASA's Apollo missions, or new standard alloys for today's lead-free electronics, Kapp's unique Precision Microcasting™ process yields unparalleled high purity solder.

Improved soldering efficiency, less downtime and cleanup, and fewer rejected parts create a higher quality final product and a more consistent performance – culminating in real savings for Kapp customers. For more information on Kapp Alloy's products and capabilities, please contact Jack Crawford at 800.327.6533 or [jack@kappalloy.com](mailto:jack@kappalloy.com)
